

Louise Elementary

Important Information for Remote Learners

Hard Copy Materials:

If you do not have a printer, hard copies of next week's assignments will be available for pick up in the front of the Elementary beginning this Friday, August 14th at 8:00 AM. Materials will be organized in tubs by grade level. If there are no materials to be picked up, teachers will communicate that with the parent via email or their Google Classrooms. Tubs will remain outside through the weekend and will then be brought back inside Monday morning and will not be accessible any further. This process will continue every week until otherwise communicated.

Technology Requests:

Chromebooks and hotspots are currently available for checkout through Skyward. They are ONLY available for students/parents that have directly communicated to the school that they will be learning remotely. Once logged into Family Access, click the "Online Forms" on the left, then on "Device Checkout" and fill out the form. A form for each child will need to be completed. Those new to Skyward, need to contact Oralia Mendez, the campus secretary, at 979-648-2982 ext. 202 for assistance with login information. Requested technology will be ready for pickup in the Elementary on Monday, August 17th from 8:00 AM – 4:00 PM.

Email:

Teachers are in the process of "enrolling" remote learners into their Google Classrooms. This is done through the student's school email account. The student's school email account will be sent to the parent via the email on file in Skyward. Please check your Skyward account and be sure each parent/guardian email account on file is correct. If an email address needs to be updated please inform Mrs. Mendez at omendez@louiseisd.net.
